

To whom it may concern, Earlier this year, after being repeatedly disgusted with the quality of local radio stations, I opted to subscribe to satellite radio. Since then I have enjoyed countless hours of quality broadcasting. Why? It all boils down to choice- the same type of choice that makes this country great. These same choices are what put our lawmakers in place. Now, these same lawmakers are attempting to restrict consumer choice by supporting the special interests of old-school broadcasting companies. This is unacceptable behavior on the part of the government! Instead of pressuring these broadcasting companies to modify their product to be more competitive in the marketplace, the legislators involved with the introduction of H.R. 4026 (Rep. Charles "Chip" Pickering, R-Miss., and Rep. Gene Green, D-Tex), and all their special interest should, and will be exposed for their actions. These legislators need to realize that an attack on the American consumer such as this will not be tolerated by the American people.

Sincerely,

John A. Morrow III "Trey"
